JOHN TAYLOR MCCONKIE

(801) 854-8750 · johntaylormcc@gmail.com · johnnymcconkie.com · linkedin.com/in/mcconkiejohn · Provo, UT

EDUCATION

Brigham Young University, Marriott School of Business — Expected Dec 2026

B.S. Information Systems · Minors in Entrepreneurship & Statistics

- GPA 3.7 Major / 3.5 Cumulative · Crocker Innovation Fellow · Coursework: Advanced Database, Database Modeling, Statistics, Programming, Information Security

EXPERIENCE

BookKeeper AI | Founder & Engineer — Oct 2025 – Present

- Built and run a live bookkeeping platform serving 3 clients (Next.js, PostgreSQL transaction store, hosted on Railway)
- Engineered an LLM-backed categorization engine that automatically classifies incoming business transactions
- Run client bookkeeping and payroll operations end-to-end on the platform

Voley | Co-founder & Technical Lead — Feb 2025 – Apr 2026

B2B SaaS · Insurance Technology

- Architected and shipped a two-way SMS platform for independent insurance agencies (Next.js, Node.js, PostgreSQL, Twilio); owned the product roadmap and managed 5 contract developers
- Built an official two-way API integration with HawkSoft, the leading insurance agency management system
- Owned carrier A2P 10DLC registration and compliance for programmatic messaging
- Sold 30 agencies through cold outreach and technical demos; 12 began migrating onto the platform
- Raised $25K from insurance industry investors and $17K in three BYU Miller Grants; keynote speaker, Insurtech Utah 2025

AttendEase | Technical Co-founder — Jan 2025 – Mar 2026

- Built the mobile app, web frontend, and school admin architecture for a facial-recognition attendance system (Vite, Node.js, PostgreSQL, AWS); contributed to database design

Big Star Concrete & Premium Surface Solutions | Sales & Project Manager — Apr 2024 – Present

- Designed a real-time on-site estimating process that increased sales efficiency 25% and shortened the quote-to-close cycle
- Built a CRM-based lead tracker and follow-up cadence to systematize pipeline management

Sunrun | Residential Sales Representative — Apr 2023 – Feb 2024

- Generated $1.2M in revenue from 36 accounts in 10 months; ranked top 5 of 197 reps for 8 consecutive weeks

BYU Continuing Education | Database Operations — Oct 2022 – Apr 2023

- Built a SQL automation pipeline that cut a recurring two-week team process to two days; adopted as standard practice

RESEARCH

LLM Evaluation Research | Directed Study, BYU (advised by Prof. Mark Keith) — In Progress

- Building a model evaluation framework that tests how the type and volume of input data affect LLM classification accuracy, benchmarked on business transaction categorization (IRS Schedule C taxonomy)

SKILLS

Languages & Data: TypeScript/JavaScript, Python, SQL, Excel/VBA
Frameworks & Infrastructure: Next.js, Node.js, Vite, PostgreSQL, REST APIs, webhooks, Twilio, AWS, Railway
AI: LLM integration and evaluation, prompt design, AI-native development with Claude Code
Spoken: English (native), Spanish (conversational)

ADDITIONAL

Two-year service mission, Quito, Ecuador (led and trained 150+ missionaries) · Eagle Scout · BYU Sloan Speech Showcase Finalist · BYU A.I. Association
